Re: Globeville Landing Park Soil Sampling Plan & Results

Dear Ms. Lavelle:

The Colorado Department of Public Health and Environment ("the Department") has received and reviewed the above-referenced document submitted by the City and County of Denver Department of Environmental Health. The Department finds that while the sampling effort has adequately demonstrated that the levels of arsenic and lead to which workers performing routine landscaping tasks are exposed do not pose an unacceptable risk, it is premature to exclude Globeville Landing Park from further investigation associated with Operable Unit 2 of the Vasquez Boulevard Superfund Site OU2.

Please do not hesitate to call me at 303-692-3395 if you have any questions.

Sincerely,

Barbara O'Grady  
State Project Manager
